"CRIME IN COLORADO - 1988"

Law Enforcement and the citizens of Colorado should view the 1988 crime statistics with some hopefulness, and with some caution. For the second year in a row, I can report a decline in overall serious crime. However, we are all aware of the cyclical nature of crime statistics, and must reaffirm our efforts to continue this downward trend. We also have a long way to go to insure the right to every Colorado citizen to live free from crime. Again, we thank all law enforcement in Colorado for their support and contributions.

Carl W. Whiteside, Director
Colorado Bureau of Investigation

This report documents criminal activity reported to and arrests made by Colorado law enforcement agencies during 1988. It reflects both good news and bad. We may have suffered slightly less serious crime in 1988 than in 1987, but we must never accept the criminal victimization of over 202,000 people.

The great majority of work required to produce this report has been done by the Sheriffs' offices and police departments across the State. We appreciate their spirit of cooperation and their unflagging commitment to crime prevention and public safety.

Sincerely,

INTRODUCTION

Two-hundred fifty-one law enforcement agencies reported crime statistics to the Colorado Bureau of Investigation during 1988. This included 62 sheriffs' departments, 189 municipal and other local agencies, plus the Colorado State Patrol and the Division of Wildlife.

The on-line incident by incident phase of the State Crime Statistics Program included 120 of the above agencies. This direct input is supplemented by the entry of the hard copy summary reports by the CBI staff. The statistics are collected and stored in the Colorado Crime Information Center (CCIC) computer.

Agencies reporting Part II offenses to the CBI via CCIC receive monthly and annual summary reports from the CBI concerning those Part II incidents.

TRAINING ASSISTANCE

The CCIC staff provides continuing quality control, monitoring, and training assistance to the personnel of over 250 criminal justice agencies statewide. This assistance insures that accurate, complete, and properly classified crime information is identified, recorded, and reported.

Files maintained relate to crime, arrests, arrest disposition, fugitives, and stolen and/or recovered property. The CCIC staff also assures proper use by over 2,000 CCIC terminal operators of the state and national law enforcement telecommunications systems.

THE INDEX OF CRIME

The crime index consists of the seven most commonly reported offenses which compose the Part I crimes: murder, forcible rape, robbery, aggravated assault, burglary, larceny-theft and motor vehicle theft. (Excludes "manslaughter by negligence and simple assaults"). The tabulations on the following pages present a summary picture of Part I crimes for the State of Colorado. Reference to the Uniform Crime Reporting definitions of each of these crimes should be made for a more precise understanding of what kinds of criminal activity these statistics represent.

The seven index crimes are also divided into two groups to enable further analysis. The categories and their components are:

VIOLENT CRIMES
Murder
Forcible Rape
Robbery
Aggravated Assault

PROPERTY CRIMES
Burglary
Larceny-theft
Motor Vehicle Theft

For 1988 the number of actual offenses reported and the rate of property crimes decreased while the rate of violent crimes increased. Based upon a 1988 estimated Colorado population of 3,356,661 the crime rate rose .8% while the number of reported offenses decreased by 4.5%. The chart below reflects those changes.

Summaries by Jurisdiction

The following pages summarize crime reported by type of offense, by reporting jurisdiction. If an agency name is missing, or if no reported crime is shown, it is because either no reports were received from those agencies, or they reported through their sheriff's offices.

Caution should be used when comparing one county's figures against anothers. There are eleven cities in Colorado that are in two or more counties. Obviously crime may occur throughout the city limits and in all counties effected. For reporting purposes however, the agencies totals are included under only one county. Following are the cities which cross county lines; next to each city is the county within which it is counted for statistical purposes.

PROPERTY STOLEN AND RECOVERED

Summaries by Jurisdiction

The next 32 pages reflect county-wide summaries of the value of property stolen and recovered. Each county report includes figures from all agencies in the county that made reports. The law enforcement agencies participating in the crime reporting program have total figures for their respective jurisdictions.

Caution should be used when comparing one county's figures against anothers. There are eleven cities in Colorado that are in two or more counties. Obviously crime may occur throughout the city limits and in all counties effected. For reporting purposes however, the agencies totals are included under only one county. Following are the cities which cross county lines; next to each city is the county within which it is counted for statistical purposes.

COLORADO ARREST DATA

Submitting agencies are required to report monthly the number of arrests made for offenses committed within their jurisdictional limits.

There is no direct correlation between persons arrested, the number of offenses reported or the number of offenses cleared. Several persons could be arrested for the same offense or the arrest of one person may clear several offenses. A person is counted only once each time arrested. Therefore, if a person is arrested but wanted for several crimes within the same jurisdiction, he or she would be scored only once for the most serious crime in accordance with the hierarchy rule. The same process is applicable whether the arrestee is adult or juvenile.

Volume and Rate

Reported arrests in Colorado totaled 235,822 for Part I and Part II crimes in 1988. This represents a 3.3% decrease over 1987. There were 7,025 arrests per 100,000 persons in 1988 as compared with 7,324 per 100,000 persons in 1987. Part I arrests accounted for 27.6% of the total arrests. Of those Part I offenses, Larceny-Theft comprised the greater portion with 48.8%. The greatest percentage of Part II arrests were for All Other Offenses (except traffic), 42.3%, followed by Driving Under the Influence, 18.6%. During 1988, arrests for violent crimes (Murder, Forcible Rape, Robbery and Aggravated Assault) accounted for 10.3% of all Part I arrests and 2.9% of the total arrests.

Arrests by Age

The number of persons under the age of 18 (Juveniles) arrested during 1988 decreased 2.8% over 1987. Arrests of juveniles for Part I crimes decreased 3.3% compared to 1987. The number of persons over the age of 18 (Adult) arrested during 1988 dncreased 3.5% from 1987. Arrests of adults for Part I crimes increased compared to 1987.

Arrest by Sex

Of the 235,822 total arrests in 1988, the greatest percentage of arrests were male, 79.0%, down 3.5% from 1987. Females accounted for the remaining 21.0% of the 1988 arrests.

Summaries by Jurisdiction

The following pages summarize crime reported by type of offense, by reporting jurisdiction. If an agency name is missing, or if no reported crime is shown, it is because either no reports were received from those agencies, or they reported through their sheriff's offices.

Caution should be used when comparing one county's figures against anothers. There are eleven cities in Colorado that are in two or more counties. Obviously crime may occur throughout the city limits and in all counties effected. For reporting purposes however, the agencies totals are included under only one county. Following are the cities which cross county lines; next to each city is the county within which it is counted for statistical purposes.

CRIMINAL HOMICIDE-SPECIAL SUPPLEMENT

Criminal homicide is defined as the willful killing of one human being by another. It is the one offense in the Uniform Crime Reporting Program for which detailed information is received for each reported offense. This type of data collection permits the analysis of homicides in terms of characteristics of the victims, the offenders, and the circumstances surrounding each offense. The benefits of this type of analyis are apparent. Namely, simple offense counts are complimented with the examination of complicated interrelationships ultimately producing a much more informative and functional overview of homicide offenses.

In this report, basic homicide data is focused on certain victim offender, and weapon characteristics. These characteristics provide us with a contrastive profile of homicide in the state of Colorado.

VOLUME AND RATE

The following data applies only to murder and non-negligent manslaughter and does not encompass negligent manslaughter. In 1988 there were 186 murders and non-negligent manslaughters that were reported and determined as actual.
